Professional History

Awesome OS, Web Developer/Team Lead

❖ **Store Integration Lead,** August 2021 – Present
- ➢ Streamlined workflows and increased productivity through efficient monitoring processes and reduced manual tasks.
- ➢ Mentored and coached team members, fostering their growth and driving continuous improvement. Resulted in 50% of team members advancing to higher roles.
- ➢ Collaborated with cross-functional teams to optimize workflow efficiency and ensure successful project delivery.
- ➢ Successfully resolved Tier 1 issues, minimizing downtime and enabling smooth development progress.

❖ **Store Integration Tier 2,** June 2021 – August 2021
- ➢ Resolved complex issues as the primary point of escalation, leveraging thorough analysis and optimal solutions.
- ➢ Enhanced efficiency and accuracy through expertise in auto-ticketer, significantly reducing non-issue occurrences.
- ➢ Demonstrated deep domain knowledge in Honey products, leading successful project and workflow rollouts while providing guidance to new team members.

❖ **Store Integration Tier 1,** February 2020 – June 2021
- ➢ Drove revenue growth through effective integration and maintenance of Honey products, while proactively resolving bugs and optimizing functionalities to ensure optimal performance.
- ➢ Conducted in-depth research and implemented targeted enhancements for optimized work efficiency.
- ➢ Fostered teamwork and continuous improvement through close collaboration with colleagues.

Flatworld Solutions PH, Web Developer
August 2018 – February 2020

- ➢ Developed website interfaces using HTML, CSS, JavaScript, and frontend libraries, resulting in highly engaging and user-friendly designs.
- ➢ Integrated Laravel back-end framework with GraphQL and SQL, optimizing data querying and manipulation for a seamless user experience.
- ➢ Utilized advanced OOP principles, including the repository pattern, to build scalable and efficient code, improving performance and maintainability.
- ➢ Maintained proactive and transparent communication with clients, incorporating their feedback and delivering frequent development updates to foster a collaborative project environment.
- ➢ Exceeded client expectations through rapid learning, leading to enhanced satisfaction and successful project outcomes.

Skills

Programming Languages
HTML, CSS, JavaScript, TypeScript, PHP, Python

Libraries and Frameworks
React, Next.js, Vue.js, Bootstrap

Database
MySQL, MongoDB, Firebase

Tools and Platforms
Jest, Puppeteer, GIt, GIthub, Bitbucket, Jira, Docker, Heroku

Featured Projects

FullCalendar, Laravel + Vue.js
YouTube | Github Repository
Developed Full Calendar project using Laravel and Vue.js, and led into the creation of YouTube tutorial with positive feedback and requests from the developer community.

Portfolio Website:
rcvioleta.github.io/portfolio/
Created a React.js and Next.js portfolio website with a captivating typing effect, smart scrolling behavior, and optimized browsing experience for various devices, emphasizing a commitment to simplifying lives through web applications.

Education

Philippine Women's College of Davao City, Graduated April 2015
Bachelor of Science in Information Technology
